

Filled Gelatin Capsules for Human Consumption

APHIS does not endorse certificates for filled gelatin capsules intended for human consumption.

Gelatin capsules (intended for human consumption) filled with ingredients other than fish oil:

Turkey requires certification under FDA authority for filled gelatin capsules intended for human consumption. Exporters should contact FDA for more information.

Gelatin capsules (intended for human consumption) filled with fish oil:

Turkey requires certification under FDA authority for filled gelatin capsules intended for human consumption. Exporters should contact FDA for more information. If the gelatin capsules are filled with fish oil, Turkey also requires certification under NOAA authority. For more information, exporters should contact NOAA.
