

Important Information Regarding Trade Ban Status

For any product not covered by those as detailed on the IREGs or if a product is thought to be related to any restriction as detailed below, it is recommended the U.S. exporter have their Taiwanese importer check with Taiwan's Animal and Plant Health Inspection Agency (APHIA) to confirm their product(s) will be permitted entry into the country and obtain the appropriate Taiwanese (C.C.C. Code) Classification, if applicable, prior to shipping.

I. Bovine Spongiform Encephalopathy

Despite the U.S. being recognized by the World Organization for Animal Health (OIE) as negligible risk status for Bovine Spongiform Encephalopathy (BSE), Taiwan does not officially consider the United States to be negligible risk thereby prohibiting the importation of numerous commodities from the U.S.

For more information on those bovine-origin products exempted from this restriction, please refer to specific commodities as noted in the pertinent IREG on the previous page. If a product is not listed, it is recommended the U.S. exporter have their Taiwanese importer check with Taiwan's Animal and Plant Health Inspection Agency (APHIA) to confirm their product(s) will be permitted entry into the country and obtain any appropriate import requirements prior to shipping.

Taiwan has verified there are NO BSE-based prohibitions on the following commodities:

- Dicalcium phosphate (protein-free and oil/fat-free);
- Gelatin and collagen derived from the skins of cattle, goats, or sheep;
- Milk products;
- Hides and skins;
- Hydrolyzed feather meal.

II. Notifiable Avian Influenza (NAI)

Taiwan current considers the following States to be affected by *highly pathogenic avian influenza* (HPAI):

Arkansas
California
Colorado
Delaware
Illinois
Indiana
Iowa
Kansas

Maryland
Mississippi
Missouri
New Jersey
New Mexico
New York
North Carolina
North Dakota

Ohio
Oregon
Pennsylvania
Puerto Rico
South Dakota
Virginia
Wisconsin

Important Information Regarding Trade Ban Status

Taiwan has lifted restrictions for *highly pathogenic avian influenza* (HPAI) in the following States:

Alabama	Massachusetts	South Carolina
Alaska	Michigan	Tennessee
Arizona	Minnesota	Texas
Connecticut	Montana	Utah
Florida	Nebraska	Vermont
Georgia	Nevada	Washington
Idaho	New Hampshire	West Virginia
Kentucky	Oklahoma	Wyoming
Maine	Rhode Island	

Taiwan currently considers the following zones to be affected by *low pathogenicity avian influenza* (LPAI):

Monroe County, New York
Orleans County, New York
Berks County, Pennsylvania
Dauphin County, Pennsylvania
Huntingdon County, Pennsylvania
Lancaster County, Pennsylvania
Lebanon County, Pennsylvania
Lehigh County, Pennsylvania
Mifflin County, Pennsylvania
Montgomery County, Pennsylvania
Schuylkill County, Pennsylvania

Poultry meat (cooked or uncooked), meat products, egg products and table eggs derived from birds slaughtered or processed in the above zones must be produced in accordance with effective dates listed in Table XX. This prohibition is not believed to apply to commodities certified by APHIS, other than Table Eggs and Shell Eggs – Preserved or Cooked, products produced under the Poultry Origin Verification Program (PouOVP), hydrolyzed feather meals, dog and cat food containing non-exempt poultry ingredients not processed to Taiwan’s recognized processing parameters, and feathers as noted in the pertinent IREG on the previous page*.

Hydrolyzed Feather Meal and Products Produced under the Poultry Origin Verification Program [PouOVP]:

APHIS can no longer endorse hydrolyzed feather meal or poultry products produced under PouOVP manufactured in the zone(s) listed in Table 1 until further notice.

Feathers

Important Information Regarding Trade Ban Status

Feathers sourced from birds from, or if legally imported, processed in the zone(s) listed in Table 1 must utilize the second certification option listed on the IREG for Poultry Feathers to Taiwan [Option: Feathers sourced from birds from, or if legally imported, processed in State(s) NOT recognized by Taiwan as free from HPAI and ND.

Dog/Cat Food Containing Non-Exempt Poultry Ingredients (not heat processed to Taiwan's recognized processing parameters)

APHIS can no longer endorse dog and cat food containing non-exempt poultry ingredients that has not been processed to Taiwan's heating parameters in zone(s) listed in Table 1 until further notice. Exporters of dog and cat food containing non-exempt poultry ingredients from these states are only eligible to export when option A or C is selected on the export health certificate. **Taiwan will refuse entry of product if it was loaded on board vessels after the date listed, even if the product was manufactured and a health certificate issued prior to that date.**

Table 1. Zone(s) of Restriction for Hydrolyzed Feather Meal and Products Produced Under PouOVP; Feathers; Dog & Cat Food Containing Non-Exempt Poultry Ingredients (not heat-processed to Taiwan's recognized processing parameters)

Region	APHIS can no longer endorse effective:
