

Important Information Regarding Trade Ban Status

For any product not covered by those as detailed on the IREGs or if a product is thought to be related to any restriction as detailed below, it is recommended the U.S. exporter have their Taiwanese importer check with Taiwan's Bureau of Animal and Plant Health Inspection and Quarantine (BAPHIQ) to confirm their product(s) will be permitted entry into the country and obtain the appropriate Taiwanese (C.C.C. Code) Classification, if applicable, prior to shipping.

I. Bovine Spongiform Encephalopathy

Despite the U.S. being recognized by the World Organization for Animal Health (OIE) as negligible risk status for Bovine Spongiform Encephalopathy (BSE), Taiwan does not officially consider the United States to be negligible risk thereby prohibiting the importation of numerous commodities from the U.S.

For more information on those bovine-origin products exempted from this restriction, please refer to specific commodities as noted in the pertinent IREG on the previous page. If a product is not listed, it is recommended the

U.S. exporter have their Taiwanese importer check with Taiwan's Bureau of Animal and Plant Health Inspection and Quarantine (BAPHIQ) to confirm their product(s) will be permitted entry into the country and obtain any appropriate import requirements prior to shipping.

Taiwan has verified there are NO BSE-based prohibitions on the following commodities:

- Dicalcium phosphate (protein-free and oil/fat-free);
- Gelatin and collagen derived from the skins of cattle, goats, or sheep;
- Milk products;
- Hides and skins;
- Hydrolyzed feather meal.

II. Notifiable Avian Influenza (NAI)

Taiwan current considers the following States to be affected by *highly pathogenic avian influenza* (HPAI):

Alabama	Montana
Arkansas	Nebraska
California	New Mexico
Colorado	New York
Florida	North Carolina
Idaho	North Dakota
Indiana	Ohio
Iowa	Oregon
Kansas	Pennsylvania
Maryland	South Dakota
Massachusetts	Texas
Michigan	Utah
Minnesota	Washington
Missouri	Wisconsin

Important Information Regarding Trade Ban Status

Taiwan has lifted restrictions for *highly pathogenic avian influenza* (HPAI) in the following States:

Alaska	Maine	South Carolina
Arizona	Mississippi	Tennessee
Connecticut	Nevada	Virginia
Delaware	New Hampshire	Vermont
Georgia	New Jersey	Wyoming
Illinois	Oklahoma	
Kentucky	Rhode Island	

Taiwan currently considers the following zones to be affected by *low pathogenicity avian influenza* (LPAI):

None

Poultry meat (cooked or uncooked), meat products, egg products and table eggs derived from birds slaughtered or processed in the above zones must be produced in accordance with effective dates listed in Table XX. This prohibition is not believed to apply to commodities certified by APHIS, other than Table Eggs and Shell Eggs – Preserved or Cooked, products produced under the Poultry Origin Verification Program (PouOVP), hydrolyzed feather meals, dog and cat food containing non-exempt poultry ingredients not processed to Taiwan’s recognized processing parameters, and feathers as noted in the pertinent IREG on the previous page*.

Hydrolyzed Feather Meal and Products Produced under the Poultry Origin Verification Program [PouOVP]:

APHIS can no longer endorse hydrolyzed feather meal or poultry products produced under PouOVP manufactured in the zone(s) listed in Table 1 until further notice.

Feathers

Feathers sourced from birds from, or if legally imported, processed in the zone(s) listed in Table 1 must utilize the second certification option listed on the IREG for Poultry Feathers to Taiwan [Option: Feathers sourced from birds from, or if legally imported, processed in State(s) NOT recognized by Taiwan as free from HPAI and ND.

Dog/Cat Food Containing Non-Exempt Poultry Ingredients (not heat processed to Taiwan’s recognized processing parameters)

APHIS can no longer endorse dog and cat food containing non-exempt poultry ingredients that has not been processed to Taiwan’s heating parameters in zone(s) listed in Table 1 until further notice. Exporters of dog and cat food containing non-exempt poultry ingredients from these states are only eligible to export when option A or C is selected on

Important Information Regarding Trade Ban Status

the export health certificate. Taiwan will refuse entry of product if it was loaded on board vessels after the date listed, even if the product was manufactured and a health certificate issued prior to that date.

Table 1. Zone(s) of Restriction for Hydrolyzed Feather Meal and Products Produced Under PouOVP; Feathers; Dog & Cat Food Containing Non-Exempt Poultry Ingredients (not heat-processed to Taiwan’s recognized processing parameters)

State of Washington	April 26, 2022, and August 31, 2023
State of Wisconsin	March 2, 2022 and May 17, 2023
State of Wyoming	March 24, 2022 and January 18, 2023

Table Eggs and Egg Products:

Important Information Regarding Trade Ban Status

Table eggs and egg products produced in the zone(s) listed in Table 3 must be produced in accordance with the effective dates below. As part of a special project implemented by Taiwan’s Bureau of Animal and Plant Health Inspection and Quarantine (BAPHIQ), statewide restrictions of egg products to Taiwan have been temporarily curtailed, effective until June 30, 2024. It is recommended exporters work with their Taiwanese importers to ensure their specific export documentation, including documents that demonstrate the secure transport of product, is appropriate and product is eligible prior to shipment.

Table 3. Zone(s) of Restriction for Table Eggs & Egg Products

Region	Produced on or BEFORE this date are ineligible:
California, Alameda County	June 22, 2021
California, Marin County	June 22, 2021
California, Merced County	January 6, 2022
California, San Mateo County	June 22, 2021
California, San Francisco County	June 22, 2021
California, Stanislaus County	January 6, 2022
Connecticut, Fairfield County	June 27, 2019

Important Information Regarding Trade Ban Status

Region	Produced on or BEFORE this date are ineligible:
State of Oklahoma	January 18, 2023
State of Rhode Island	January 18, 2023
State of South Carolina	January 18, 2023
State of Vermont	January 18, 2023
State of Wyoming	January 18, 2023

III. Virulent Newcastle Disease (vND)

The following zone(s) are currently considered to be affected by vND: **None.**

Ineligible Product:

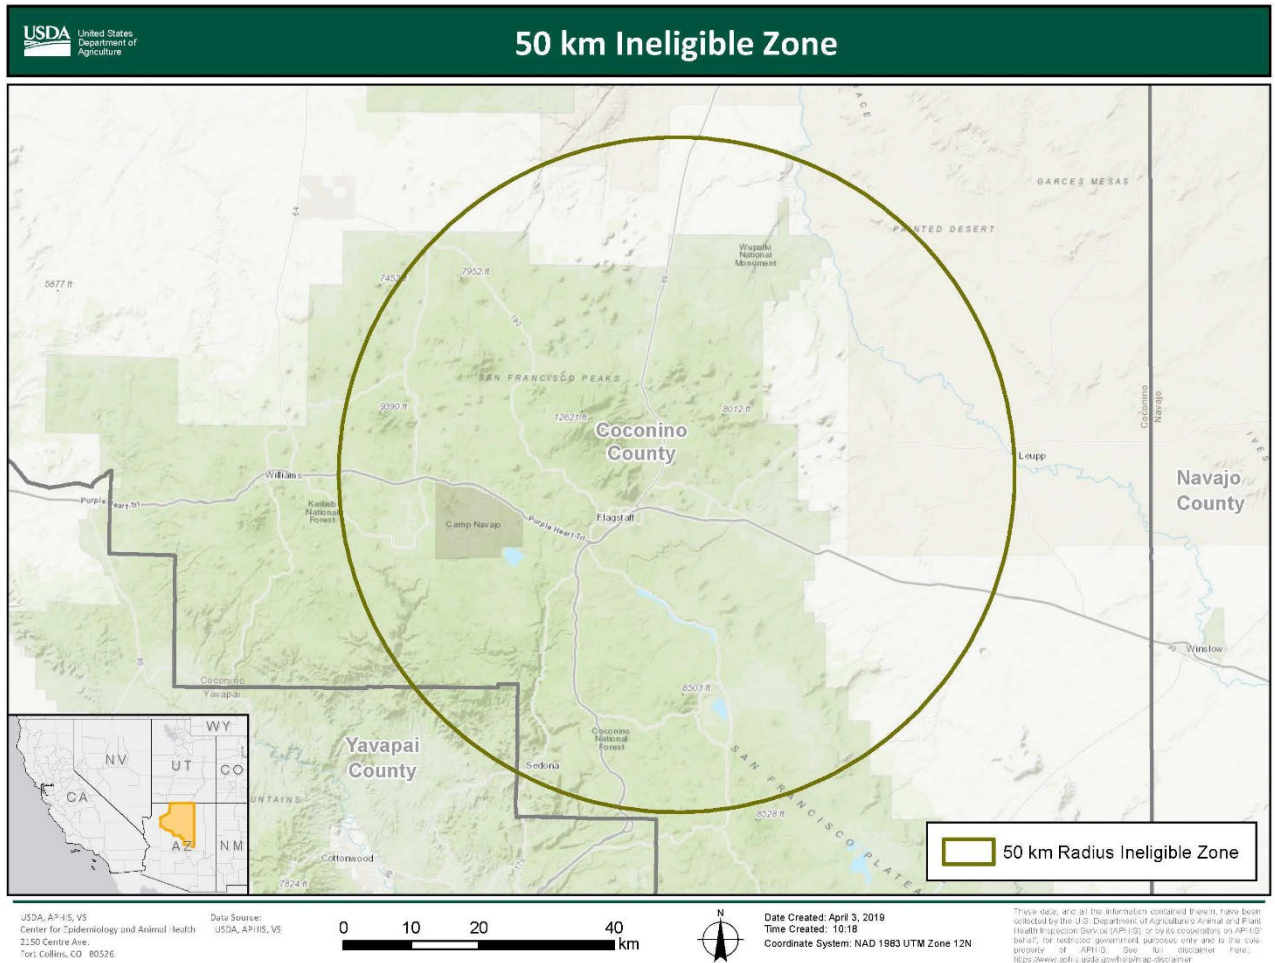

- **Arizona** – Poultry meat and meat products from:
 - Derived from birds slaughtered on or before June 30, 2019 from the 50km radius ineligible zone shown on the map on page 7.
- **California** – Poultry meat and meat products from:
 - The State of California slaughtered on or before July 20, 2020.
- **Utah** – Poultry meat and meat products:
 - Derived from birds slaughtered on or before April 18, 2019 from the 50km radius ineligible zone shown on the map on page 8.

vND Zone Ineligibilities:

Arizona – Poultry meat and meat products from

- Derived from birds slaughtered on or before June 30, 2019 from the 50km radius ineligible zone on the map below.

Important Information Regarding Trade Ban Status

Utah – Poultry meat and meat products:

- Derived from birds slaughtered on or before April 18, 2019 from the 50km radius ineligible zone shown on the map below
