

Veterinary Health Certificate for Export of Live Birds from the United States of America to the United Arab Emirates

Veterinary Authority

UNITED STATES DEPARTMENT OF AGRICULTURE

Date Of Issue

Certificate Number

Certification Statements:

I, the undersigned USDA Accredited Veterinarian, certify that the live animals described above meet the following conditions:

1. The birds originate from a country or zone (state) where highly pathogenic avian influenza, as defined by the World Organization for Animal Health (WOAH) Terrestrial Animal Health Code, was not reported in poultry for at least 12 months prior to export, or have freedom for a minimum period of 28 days after the successful control applying a stamping-out policy and disinfection after an outbreak in country/zone which has been previously free (delete if not applicable).
2. The birds originate from zones (states) which are free from Newcastle disease, as defined by the WOAH Terrestrial Animal Health Code, in poultry for at least 12 months prior to export, or for at least 3 months if case of applying a stamping-out policy.
3. The birds originate from an establishment in which no compulsorily notifiable bird diseases were reported for at least 3 months prior to shipment.
4. The birds have been clinically examined within 7 days before export and did not have clinical signs of highly pathogenic avian influenza or other diseases.
5. If the birds were vaccinated within the 6 months prior to export, provide the name of the disease, the vaccine type, and the vaccination date:_____
6. The birds have resided in the United States since hatching or have spent at least 3 months in the United States. *Not required for falcons returning to the UAE, delete as appropriate.
7. If the United States is not free from highly pathogenic avian influenza, as defined by the WOAH Terrestrial Animal Health Code, in poultry, the following conditions apply:*
 - a. The birds have been placed in isolation from other birds under supervision of a USDA Accredited Veterinarian for at least 21 days prior to export and have no clinical signs of disease.
 - b. The birds were tested for avian influenza with negative results within 10 days prior to shipment.

*Delete as appropriate.
