

## Sponges

The United Kingdom (UK) does not require government certification for the above referenced materials. (APHIS does not endorse certificates for consignments of these materials to the UK.)

To import these materials, the UK importer (or their agent in the UK) must pre-notify the border inspection post (BIP) through which the consignment will enter the UK. They will have to provide a Common Veterinary Entry Document (CVED)\* and corresponding commercial documents. However, a veterinary health certificate is not required.

For more information UK importers may contact:

\*Common Veterinary Entry Document (CVED): The CVED is not a document prepared or endorsed in the United States. The CVED is prepared by the EU importer (or in the case of shipments transiting the EU, by the individual responsible for the consignment while it is in the EU) and submitted to the EU border inspection post (BIP). The BIP finalizes the CVED prior to release of the shipment for movement within the EU. APHIS does not endorse CVEDs.
