**Agriculture, Fisheries & Conservation Department (AFCD) Special Permit Number:**

**Certification Statements:**

I, the undersigned official USDA accredited veterinarian, certify the following statements:

a. The animals have been examined by me and have been found to be in good health and show no clinical evidence of infectious or contagious diseases at the time of final inspection.

b. The country is free from the following diseases for the twelve (12) months prior to export:

- (i) Swine vesicular disease
- (ii) African swine fever
- (iii) Classical swine fever
- (iv) Vesicular stomatitis virus (VSV)\*

\*Otherwise, exporters should apply for dispensation from AFCD which would only be considered on a case-by-case basis.

c. The animals have been kept since birth, or for the past six (6) months prior to export, on premises where no cases of the following diseases were officially reported:

- (i) Porcine brucellosis (*Brucella suis*)
- (ii) Rabies
- (iii) Trichinellosis
- (iv) Atrophic rhinitis
- (v) Porcine cysticercosis
- (vi) Transmissible gastroenteritis (TGE)
- (vii) Teschovirus encephalomyelitis
- (viii) Porcine reproductive and respiratory syndrome (PRRS)
- (ix) Tuberculosis
- (x) Porcine epidemic diarrhea (PED)

d. The animals showed no clinical signs of the diseases listed in (b.) & (c.) above at the time of final inspection by USDA accredited veterinarian.

e. For Swine Brucellosis (*B. suis*), the animals for export were tested with negative results within 30 days prior to export, using a test described in the WOAH Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.

Date of Test: \_\_\_\_\_

f. For Aujeszky's Disease (Pseudorabies), the animals for export:

[0] have been kept since birth, or for the past six (6) months prior to export, on premises where no cases of Aujeszky's Disease were reported AND have been

Certification Statements:

vaccinated against Aujeszky's Disease.

Date of Vaccination: \_\_\_\_\_

[O] were isolated in the premise of origin, or a USDA accredited veterinarian-approved pre-export isolation facility for at least 30 days AND were subjected to a serological test to pseudorabies virus with negative results, on two occasions, at an interval of not less than 30 days between each test, the second test being performed within 15 days prior to export.

Date of First Test: \_\_\_\_\_

Date of Second Test: \_\_\_\_\_

g. For Foot and Mouth Disease (FMD) the animals for export:

[O] have been resident since birth, or for the past twelve (12) months prior to export in a country that is officially free from Foot and Mouth Disease, as described in the WOA Code.

[O] were kept in the premises since birth, or for the past three (3) months prior to export, where FMD has not occurred within a ten-kilometer radius (10 km) of the premises of origin for the past 3 months prior to export; AND underwent 30 days pre-export isolation (PEI) in the government approved premises; AND all the animals tested negative for FMDV infection using throat swab samples and serology collected within 14 days prior to export and that FMD did not occur within a ten-kilometer radius of the premises during the entire period of PEI; AND were not exposed to any source of FMD infection during their transportation from the quarantine station to the place of export.

h. For Leptospirosis, the animals for export:

(i) showed no clinical signs of Leptospirosis at the time of final inspection by the USDA accredited veterinarian; AND  
(ii) were kept on premises in which no clinical signs of Leptospirosis were confirmed during the three (3) months prior to export; AND  
(iii) were injected with a long-acting antibiotic effective against leptospirosis within 30 days prior to export.

Date of Treatment: \_\_\_\_\_

Name of Administered Drug: \_\_\_\_\_

Dosage Administered: \_\_\_\_\_

This certificate is valid for seven (7) days from the date of issuance to the date of export.
