Certification Statements:

I, the undersigned USDA accredited veterinarian, acknowledge that the live animals for export satisfy the following conditions:

1. The United States is recognized by the World Organization of Animal Health (WOAH) as free from foot and mouth disease (FMD), without vaccination
2. The United States is free from African swine fever (ASF), Classical swine fever (CSF), and Nipah virus encephalitis for at least the last three (3) years prior to export.
3. The animals for export originate from States that are considered officially free of swine brucellosis for at least 3 years prior to export; OR were subjected during pre-export isolation to a diagnostic laboratory test for *Brucella suis* with negative results.

Test Date (if required): _____

4. The animals for export originate from establishments which:
 - a. have had no record of any cases of rabies for at least twelve (12) months prior to export.
 - b. were free from Aujeszky's disease and Trichinellosis during the last twelve (12) months prior to export; OR the animals were subjected during pre-export isolation to a diagnostic laboratory test for Aujeszky's disease and Trichinellosis with negative results.

Test Date (if required): _____

- c. have had no record of cases of Crimean-Congo hemorrhagic fever (CCHF) for at least six (6) months prior to export.
 - d. have had no cases of influenza for at least thirty (30) days prior to export.
 - e. have had no cases of anthrax for at least twenty (20) days prior to export.
5. The animals for export received preventive doses for internal and external parasite during the pre-export isolation and were sprayed with a topical insecticide approved for use in the United States.
6. The animals for export will be clinically examined during (48) hours before export by an APHIS Port Veterinarian and only those animals with no symptoms of contagious and infectious diseases including Q fever, will be approved for export.
